

# SUSTAINABLE FISHERIES ENTREPRENEURSHIP PROJECT (SFEP)

## FACILITATION PROJECTS

190

Iceboxes of 70 litres capacity distributed among the beneficiaries of Rehri and Ibrahim Hyderi villages with the aim to facilitate poor fishermen in improving fish catch storage while at sea. Effectiveness survey is in progress.

50

Toolkits with a set of standard tools such as screwdrivers, spanners, hammer, etc given to selected underprivileged fishermen to help increase engine maintenance efficiency and reduce costs of such maintenance. Effectiveness survey is in progress.

75

Water filters installed in fisher-folk homes with the objective of improving drinking water quality. Current status and effectiveness survey is in progress.

1,500

Children from 9 schools engaged through environmental days celebrations, nature walks, tree plantation, beach cleaning and classroom sessions.

69

Sensitisation and actualisation meetings conducted with an outreach to 2,100 people from the mohallas.

## FISHING PROJECTS

280 FISHERMEN TRAINED

on responsible fishing practices related to concepts of longline, improving target catch, reducing by-catch, plastic waste minimisation and improved storage. Additionally, 3 boat owners have received longline set with 200 circle hooks.

20 FISHER GROUPS

12 for men and 8 for women established at the Mohalla/Para level in Rehri and Ibrahim Hyderi villages with an existing membership of 279 members, creating the required institutional foundation.

## WOMEN TRAINING PROJECTS

CANDLE MAKING

Women trained and enabled in candle making to supplement their household incomes.

KITCHEN GARDENING

Women trained and facilitated in kitchen gardening.

100

FISH PACKAGING AND PROCESSING

Women are trained with 4 Fish Processing and Packaging Units (FPPUs) established at Maachi and Mirbahar Muhallah in Ibrahim Hyderi.
