

TOWARDS 2030

A STRATEGY FOR A THRIVING FUTURE

OUR new 2026-2030 strategic plan sets the direction for the next five years of our conservation journey. It outlines WWF-Laos' conservation priorities across forests, freshwater, wildlife and circular resilience, and aligns with Laos' national goals and global commitments to biodiversity and sustainable development.

Cross-cutting themes such as climate mitigation and adaptation, inclusive conservation, and effective operational functions remain central to this strategy.

The strategy focuses on protecting biodiversity, restoring forests and rivers, and promoting sustainable livelihoods that strengthen community resilience. Guided by science, innovation, and local knowledge, WWF-Laos aims to inspire collective action for a greener, fairer and more resilient Laos – where people and nature live in harmony for generations to come.

OUR VISION

WE envision a vibrant and sustainable future for Laos, shaped by inclusive conservation that protects biodiversity, ensures equitable benefits, and nurtures harmony between people and the environment.

OUR GOAL

WE aim to achieve significant conservation progress across our priority landscapes by preventing local extinction, protecting and restoring critical forests, improving freshwater ecosystem health, and helping communities adapt to climate change through nature-based solutions – all through strong partnerships and collective action.

KEY CONSERVATION PROGRAMMES

WHERE WE WORK

3 LANDSCAPES

8 PRIORITY SITES

3 CITIES

OUR conservation programmes operate across key landscapes and priority sites selected for their ecological importance, the threats they face, and their potential for lasting impact. These areas safeguard unique ecosystems, critical habitats, and endangered species while supporting community livelihoods and contributing to national and regional sustainability.

WWF-Laos also implements plastic and waste management initiatives to promote cleaner and more sustainable cities.

CONSERVATION PRIORITIES

KEY SPECIES GROUPS

MAMMALS

BIRDS

REPTILES

FISH

KEY HABITAT TYPES

EVERGREEN FOREST

MIXED EVERGREEN FOREST

DRY DIPTEROCARP FOREST

CONIFEROUS FOREST

RIPARIAN FOREST

WETLANDS

KEY CROSS-CUTTING THEMES

GENDER EQUALITY, DISABILITY & SOCIAL INCLUSION

FOOD AND SUSTAINABLE AGRICULTURE

SUSTAINABLE FINANCE

CLIMATE CHANGE

STRATEGIC PARTNERSHIPS

OPERATIONAL FUNCTIONS

Essential to delivering WWF-Laos' conservation impact, the organization's operational functions drive success and ensure efficiency across all our programmes. Through smart resource management, strong governance and transparent finance, they strengthen decision-making and collaboration, while clear communication and advocacy keep efforts aligned.

From finance and human resources to procurement and administration, these functions provide the foundation that enables WWF-Laos to work towards a future where people and nature thrive together in harmony.

COMMUNICATIONS AND ADVOCACY

FINANCE

GOVERNANCE, RISK AND COMPLIANCE

IMPACT AND INNOVATION

PEOPLE AND CULTURE

OUR PARTNERSHIP APPROACH

Collaboration will remain at the heart of how we work, partnering with government agencies, communities, civil society, the private sector, and international organizations to achieve shared conservation goals. Together, we aim to strengthen the management and protection of biodiversity, restore ecosystems, and promote sustainable livelihoods that benefit both people and nature.

By joining forces, we can build a greener, more resilient, and nature-positive future for Laos.

ABOUT US

2001

WWF-Laos formally established

8

Offices across Laos, with the head office in Vientiane Capital

75

Staff, working with partners to deliver effective conservation

Part of WWF's Southeast Asia sub-regional office; supported by WWF International and WWF offices worldwide
