Gender Analysis Consultancy

We are looking to recruit a Consultant to carry out socio-economic cultural characterization of the FFIA MSC tuna sector that highlights key primary and cross-cutting benefits such as gender is conducted and to conduct gender analysis to improve understanding and knowledge of the different implications of gender in the development of the tuna industry in Fiji, and in meeting the challenges of this sector. The research and analysis is also intended to inform current practice in gender-based planning, inclusiveness, and accountability in the Fiji's offshore fisheries sector. This desk-top research and analysis as well as stakeholder consultation processes shall also cover relevant regional and international processes where this is relevant including obligations that Fiji is party to.

Location:

WWF-Pacific Office, 4 Ma'afu Street, Suva, Fiji.

What you need:

Required Skill and Competencies:

This work will be undertaken by an individual or individuals with:

- At least 5-7 years of experience in conducting gender related research; gender analysis in development, government and private sector; developing and delivering gender equality, diversity and social inclusion programmes and training;
- Experience with, and involvement in fisheries related projects;
- Strong organisational and planning skills;
- The ability to work within agreed timelines & deliver according to schedule.
- Proven track record in successfully managing inter-institutional relations, preferably with public sector partners.
- Experience with effective engagements with culturally diverse and multi-disciplinary teams.
- Possess report writing skills with demonstrated strong analytical and problem solving skills;
- Ability to adhere to strict deadlines, in a timely and cost conscious manner;
- Complies with all occupational health and safety, security child protection and equal employment opportunity initiatives to contribute to a safe, healthy, equitable and ethical workplace;
